

Membership fee NoSCoS for 2024-2025

- Working group on membership has considered several possibilities (presented during general meetings before).
- The purpose of having a register at NoSCoS is to meet the requirements from the Swedish tax authorities. Since we are a society with a bank account, the Swedish Tax Authorities demands a membership register which we now have.
- The time and money spent by administering a membership fee are costly.
- The Board propose that we continue with a membership that is free of charge for 2024-2025.
